

Remarks

The above Amendments and these Remarks are in reply to the Examiner's Amendment attached to the Notice of Allowability mailed March 28, 2006.

The amendment to Specification paragraphs [0058]-[0061], [0063], [0064], [0068] and [0069] is needed to conform with formal drawings submitted on June 28, 2006. The amendments seek to reduce confusion by eliminating reference numbers which refer to redundant elements and/or action elements.

It is submitted that no new matter is added as a result of the amendments, and that the patentability of the claims is in no way affected.

In view of the above, it is respectfully requested that the Amendments set forth above be entered.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 06-1325 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,
